November 23, 2016

Dear Valued Customer

Effective January 1, 2017, Mississippi Lime Company will be increasing prices for various quicklime, hydrate and calcium carbonate products by approximately 3.5%.

The price increase is necessary to support continued investments in the business as well as address a variety of ongoing cost pressures. Expenses related to acute regulatory pressures in mining, manufacturing, environmental compliance and healthcare continue to increase.

Mississippi Lime Company has a focus on manufacturing excellence and cost optimization. These efforts to maximize quality and efficiency will continue in 2017 to help to offset impacts to our valued customers. Thank you for your business and the opportunity to provide solutions for your requirements.

Sincerely,

Eric C. Van Rens
Vice President – Sales & Marketing
