

2017 FACT SHEET

VISION

To be the preferred supplier of calcium-based products and services; respected by our customers, employees and communities.

MISSION

Develop and utilize world-class capabilities to provide innovative solutions with calcium-based products and services to drive sustained economic value.

CORE VALUES

- Integrity
- Customer Satisfaction
- Operational Excellence
- Sustainability
- Our Responsibility to Each Other

HISTORY

Although Mississippi Lime was founded in 1907 by Harry B. Mathews Jr., the Company has origins as Mississippi Sand Company in Alton, Illinois. Looking to expand, the Company purchased property in Ste. Genevieve County, MO in the '20s. In the '30s and '40s, Mississippi Lime expanded further and acquired Western Lime company and Peerless and Ste. Genevieve Lime Co. During the '50s through the '70s, the Company experienced growth that required more manufacturing and advanced technology to meet customers' growing needs. This trend continued into the 21st century. In 2001, Mississippi Lime acquired Ash Grove Cement Company in Springfield, MO, and in 2003 the Company purchased Falco Lime, Inc., located in Vicksburg, MS. The Company acquired Huron Lime in Huron, OH in 2014. Today, Mississippi Lime continues to be privately held by the same family. Our company is guided by our founder's principles and by our vision, mission and values. Our headquarters is located in St. Louis, MO.

HEALTH AND SAFETY

At Mississippi Lime Company, we believe that all injuries and occupational illnesses can be prevented and that safety must be a fundamental responsibility of each employee. We also believe that safety and occupational health must be thoroughly integrated into our operations which will allow us to produce high quality products at competitive costs.

ENVIRONMENTAL

It is Mississippi Lime Company's policy to manage our businesses in an environmentally responsible manner, meeting the requirements of all applicable environmental laws and regulations. Not only is Mississippi Lime Company committed to environmental responsibility, but we believe it is essential to communicate to our employees, customers and communities about the important role of responsible environmental management. The Company has adopted this policy to clearly communicate and demonstrate our commitment to environmental stewardship. We believe the operation of our businesses in conformance with the expectations of local communities and policy leaders is vital to our continued viability.
