SAFETY DATA SHEET

1. Identification

1. Identification			
Product identifier	MLC™ MicroCal®O, PetroCal®O, and PolyCal®O Calcium Oxides		
Other means of identification	1005 70 0		
CAS number	1305-78-8		
Recommended use	For commercial applications of calcium oxide powder in general chemical manufacturing, glass and composites, plastics & polymers, coatings and adhesives, rubber, water treatment, construction, and other unlisted industrial uses.		
Recommended restrictions	Not for use as direct food or pharma ingredien	ts.	
Manufacturer/Importer/Supplier/	Distributor information		
Manufacturer:	Mississippi Lime Company, LLC dba MLC		
Address:	16147 US Highway 61		
	Ste Genevieve, MO 63670		
Phone Number:	(800) 437-5463		
24 Hour Emergency Contact Number:	(866) 519-4752		
Access code:	336393		
2. Hazard(s) identification			
Physical hazards	Not classified.		
Health hazards	Skin corrosion/irritation	Category 1C	
	Serious eye damage/eye irritation	Category 1	
	Specific target organ toxicity, single exposure		
Environmental hazards	Hazardous to the aquatic environment, acute	Category 3	
	hazard		
OSHA defined hazards	Not classified.		
Label elements			
Signal word	Danger		
Hazard statement	Causes severe skin burns and eye damage. May cause respiratory irritation. Harmful to aquatic life.		
Precautionary statement			
Prevention	Do not breathe dust. Wash thoroughly after handling. Use only outdoors or in a well-ventilated area. Wear protective gloves/protective clothing/eye protection/face protection. Avoid release to the environment.		
Response	If swallowed: Rinse mouth. Do NOT induce vomiting. If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. If inhaled: Remove person to fresh air and keep comfortable for breathing. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison center/doctor. Wash contaminated clothing before reuse.		
Storage	Store in a well-ventilated place. Keep container tightly closed. Store locked up.		
Disposal	Dispose of contents/container in accordance with local/regional/national/international regulations.		
Hazard(s) not otherwise classified (HNOC)	None known.		
Supplemental information	None.		

3. Composition/information on ingredients

Subs	tan	ces

Chemical name	Common name and synonyms	CAS number	%
Calcium oxide (CaO)		1305-78-8	97 - 99
Impurities			
Chemical name	Common name and synonyms	CAS number	%
Magnesium Oxide		1309-48-4	≤ 1
Silicon Oxide		7631-86-9	≤ 1
Composition comments	Occupational Exposure Limits for impurities a percent by weight.	are listed in Section 8. All conc	entrations are in
4. First-aid measures			
Inhalation	Remove victim to fresh air and keep at rest in a position comfortable for breathing. If not breathing, give artificial respiration. Call a poison center or doctor/physician if you feel unwell.		
Skin contact	Take off immediately all contaminated clothin poison control center immediately. Chemical contaminated clothing before reuse.	Take off immediately all contaminated clothing. Rinse skin with water/shower. Call a physician or poison control center immediately. Chemical burns must be treated by a physician. Wash	
Eye contact	Do not rub eyes. Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Call a physician or poison control center immediately.		
Ingestion	Call a physician or poison control center immediately. Rinse mouth. Do not induce vomiting. If vomiting occurs, keep head low so that stomach content doesn't get into the lungs.		
Most important symptoms/effects, acute and delayed	Burning pain and severe corrosive skin damage. Causes serious eye damage. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result. May cause respiratory irritation.		
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and treat symptomatically. Chemical burns: Flush with wate immediately. While flushing, remove clothes which do not adhere to affected area. Call an ambulance. Continue flushing during transport to hospital. Keep victim under observation. Symptoms may be delayed.		
General information	If you feel unwell, seek medical advice (show personnel are aware of the material(s) involve		
5. Fire-fighting measures			
Suitable extinguishing media	Use fire-extinguishing media appropriate for s	surrounding materials.	
Unsuitable extinguishing media	Do not use water as an extinguisher. The product reacts with water and will generate heat.		generate heat.
Specific hazards arising from the chemical	During fire, gases hazardous to health may b	e formed.	
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full p	rotective clothing must be wor	n in case of fire.
Fire fighting equipment/instructions	In case of fire and/or explosion do not breather it without risk.	e fumes. Move containers from	n fire area if you can do
Specific methods	Use standard firefighting procedures and con	sider the hazards of other invo	lved materials.
General fire hazards	The product is nonflammable and does not su	upport combustion.	
6. Accidental release meas	sures		
Personal precautions	Keep unnecessary personnel away. Keep per	onle away from and unwind of	snill/leak Wear

Personal precautions, protective equipment and emergency procedures Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Do not breathe dust. Use a NIOSH/MSHA approved respirator if there is a risk of exposure to dust/fume at levels exceeding the exposure limits. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

Methods and materials for containment and cleaning up	Avoid dispersal of dust in the air (i.e., clearing dust surfaces with compressed air). Collect dust using a vacuum cleaner equipped with HEPA filter. Prevent product from entering drains. Stop the flow of material, if this is without risk. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Do not get water inside containers. Prevent entry into waterways, sewer, basements or confined areas.
	Small Spills: Cover with DRY earth, DRY sand, or other non-combustible material followed with plastic sheet to minimize spreading or contact with rain. Collect spill using a vacuum cleaner with a HEPA filter. Put material in suitable, covered, labeled containers.
	Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.
Environmental precautions	Avoid release to the environment. Inform appropriate managerial or supervisory personnel of all environmental releases. Prevent further leakage or spillage if safe to do so. Avoid discharge into drains, water courses or onto the ground.
7. Handling and storage	
Precautions for safe handling	Minimize dust generation and accumulation. Provide appropriate exhaust ventilation at places where dust is formed. Do not breathe dust. Do not get in eyes, on skin, or on clothing. Avoid prolonged exposure. Wear appropriate personal protective equipment. Avoid release to the environment. Observe good industrial hygiene practices.
Conditions for safe storage, including any incompatibilities	Store locked up. Store in tightly closed container. Store in a well-ventilated place. Avoid contact with acids, water, and moisture. Protect from humidity. The substance is hygroscopic and will absorb water by contact with the moisture in the air. Store away from incompatible materials (see Section 10 of the SDS).

8. Exposure controls/personal protection

Occupational exposure limits

U.S OSHA Impurities	Туре	Value	
Silicon Oxide (CAS 7631-86-9)	TWA	80 mg/m3	
US. OSHA Table Z-1 Permissible Expo Material	sure Limits (PEL) for Air Type	Contaminants (29 CFR 1910.1 Value	000)
Silicon dioxide, crystalline silica-free (CAS 1305-78-8)	PEL	5 mg/m3	
Impurities	Туре	Value	Form
Magnesium Oxide (CAS 1309-48-4)	PEL	15 mg/m3	Total particulate.
US. OSHA Table Z-3 Permissible Expo Impurities	sure Limits (PEL) for Mir Type	neral Dusts (29 CFR 1910.1000 Value) Form
Magnesium Oxide (CAS 1309-48-4)	TWA	5 mg/m3	Respirable fraction.
		15 mg/m3	Total dust.
		50 mppcf	Total dust.
		15 mppcf	Respirable fraction.
Silicon Oxide (CAS 7631-86-9)	TWA	5 mg/m3	Respirable fraction.
		15 mg/m3	Total dust.
		20 mppcf	
US. ACGIH Threshold Limit Values (TL	•		
Material	Туре	Value	
Silicon dioxide, crystalline silica-free (CAS 1305-78-8)	TWA	2 mg/m3	
Impurities	Туре	Value	Form
Magnesium Oxide (CAS 1309-48-4)	TWA	10 mg/m3	Inhalable fraction.

Material	Туре	Value
Calcium oxide (CaO) (CAS 1305-78-8)	IDLH	25 mg/m3
Impurities	Туре	Value
Magnesium Oxide (CAS 1309-48-4)	IDLH	750 mg/m3
Silicon Oxide (CAS 7631-86-9)	IDLH	3000 mg/m3
US. NIOSH: Pocket Guide to	o Chemical Hazards	
Material	Туре	Value
Calcium oxide (CaO) (CAS 1305-78-8)	TWA	2 mg/m3
Impurities	Туре	Value
Silicon Oxide (CAS 7631-86-9)	TWA	6 mg/m3
ological limit values	No biological exposure limits noted	for the ingredient(s).
ntrols	maintain airborne levels below reco established, maintain airborne leve sufficient to maintain concentration	s, local exhaust ventilation, or other engineering controls to commended exposure limits. If exposure limits have not been els to an acceptable level. If engineering measures are not is of dust particulates below the Occupational Exposure Limit on must be worn. Eye wash facilities and emergency shower his product.
lividual protection measures	, such as personal protective equip	oment
Eye/face protection	When working with powders or dus facepiece respiratory protection is w	sts, wear dust-proof chemical goggles and face shield unless f worn.
Skin protection		
Hand protection	Wear appropriate chemical resistant gloves. Suitable gloves can be recommended by the supplier.	
Skin protection		
Other	Wear appropriate chemical resistar	nt clothing. Use of an impervious apron is recommended.
Respiratory protection	If engineering controls do not maintain airborne concentrations below recommended exposure limits (where applicable) or to an acceptable level (in countries where exposure limits have not been established), an approved respirator must be worn. Wear NIOSH approved respirator appropriate for airborne exposure at the point of use. In the United States of America, if respirato are used, a program should be instituted to assure compliance with OSHA 29 CFR 1910.134.	
Thermal hazards	Wear appropriate thermal protective clothing, when necessary.	
	Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.	

9. Physical and chemical properties

Appearance	
Physical state	Solid.
Form	Powder.
Color	Light grey to White
Odor	Odorless.
Odor threshold	Not available.
рН	> 12.4 Saturated solution in water
Melting point/freezing point	4661.6 °F (2572 °C)
Initial boiling point and boiling	5162 °F (2850 °C)
range	
Flash point	Not available.
Evaporation rate	Not available.
Flammability (solid, gas)	Non flammable.

Upper/lower flammability or explosive limits			
Explosive limit - lower (%)	Not available.		
Explosive limit - upper (%)	Not available.		
Vapor pressure	Not available.		
Vapor pressure temp.	77 °F (25 °C) 77 °F (25 °C)		
Vapor density	Not available.		
Relative density	Not available.		
Solubility(ies)			
Solubility (water)	Reacts		
Partition coefficient (n-octanol/water)	Not available.		
Auto-ignition temperature	Not available.		
Decomposition temperature	Not available.		
Viscosity	Not available.		
Other information			
Density	3.34 g/cm3		
Explosive properties	Not explosive.		
Molecular formula	Ca-O		
Molecular weight	56.08 g/mol		
Oxidizing properties	Not oxidizing.		

10. Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.	
Chemical stability	Stable under the prescribed storage conditions.	
Possibility of hazardous reactions	Strong exothermic reaction with acids. Calcium oxide reacts exothermically with water to form calcium hydroxide. The heat generated by this reaction may ignite combustible materials.	
Conditions to avoid	Contact with incompatible materials. The substance is hygroscopic and will absorb water by contact with the moisture in the air.	
Incompatible materials	Acids. Water, moisture. Humid air. Hydrogen fluoride. Phosphorus pentoxide. Boric oxide. Steam. Many organic materials.	
Hazardous decomposition products	Contact with water: Calcium hydroxide.	

11. Toxicological information

Information on likely routes of exposure

· · · · · · · · · · · · · ·			
	Inhalation	May cause respiratory irritation. Prolonged inhalation may be harmful.	
	Skin contact	Causes severe skin burns.	
	Eye contact	Causes serious eye damage.	
	Ingestion	Causes digestive tract burns.	
	Symptoms related to the physical, chemical and toxicological characteristics	Burning pain and severe corrosive skin damage. Causes serious eye damage. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result. Causes digestive tract burns. May cause respiratory irritation.	

Information on toxicological effects

Acute toxicity Not expected to be acutely toxic.		
Toxicological data		
Impurities	Species	Test Results
Silicon Oxide (CAS 7631-86-9)		
Acute		
Dermal		
LD50	Rabbit	> 5000 mg/kg, 24 Hours

Impurities	Species	Test Results
Inhalation		
Dust		
LC50	Rat	> 0.14 mg/l, 4 Hours
Oral LD50	Rat	> 3300 mg/kg
		> 3300 mg/kg
Skin corrosion/irritation	Causes severe skin burns.	
Serious eye damage/eye irritation	Causes serious eye damage.	
Respiratory or skin sensitization	1	
Respiratory sensitization	Not a respiratory sensitizer.	
Skin sensitization	This product is not expected to	cause skin sensitization.
Germ cell mutagenicity	No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.	
Carcinogenicity	Not classifiable as to carcinogenicity to humans.	
IARC Monographs. Overall B	Evaluation of Carcinogenicity	
Silicon Oxide (CAS 7631- NTP Report on Carcinogens	,	3 Not classifiable as to carcinogenicity to humans.
Not listed.		
	d Substances (29 CFR 1910.10	01-1053)
Not listed.	This product is not expected to	course reproductive or developmental offsets
Reproductive toxicity	This product is not expected to cause reproductive or developmental effects.	
Specific target organ toxicity - single exposure	May cause respiratory irritatior	l.
Specific target organ toxicity - repeated exposure	Not classified.	
Aspiration hazard	Not an aspiration hazard.	
Chronic effects	Prolonged inhalation may be harmful.	
12. Ecological information	I	
Ecotoxicity	Harmful to aquatic life.	
Persistence and degradability	The product solely consists of inorganic compounds which are not biodegradable.	
Bioaccumulative potential	No data available on bioaccum	ulation.
Mobility in soil	No data available for this product.	
Other adverse effects	The product may affect the aci organisms.	dity (pH-factor) in water with risk of harmful effects to aquatic
13. Disposal consideration	ıs	
Disposal instructions	this material to drain into sewe	in sealed containers at licensed waste disposal site. Do not allow rs/water supplies. Do not contaminate ponds, waterways or ditches er. Dispose of contents/container in accordance with onal regulations.
Local disposal regulations	Dispose in accordance with all	-
Hazardous waste code	The waste code should be ass disposal company.	igned in discussion between the user, the producer and the waste
Waste from residues / unused products	Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions). Dispose of in accordance with local regulations.	
Contaminated packaging	Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.
